The International Declaration on the Human Rights of Children in the Digital Ag

Dec. 13, 2023

Pernille Schriver

Vice-Chair for Europeans for Safe Connections
International coordinator for the Danish EHS Association
schriver.esc@protonmail.com

Alliance of European organisations

- understanding and acceptance that EMF is harmful to all life

- better regulation of EMF by European and national policy makers, e.g.

- defending groups sensitive to EMF; EHS, children, pregnant women...

Please help us spread this important project

The International Declaration on the Human Rights of Children in the Digital Age

Content: This initiative focuses on the right of all children to be protected from:

- ✓ screentime addiction
- ✓ involuntary exposure to EMF
- √ commercial exploitation

Please read the declaration in English here and also in French, Italian, Spanish, German, Russian, Chinese, Croatian, Czech, Norwegian.

Action: The initiators behind the Children's Declaration will submit the declaration to:

- ✓ Secretary General of the U.N.
- ✓ Member States of the General Assembly
- ✓ The Economic and Social Council
- ✓ The U.N. Commission on Human Rights
- ✓ UNICEF
- ✓ UNESCO
- √ The European Council
- ✓ WHO

What can you do?

The ESC Working Group urges all ESC members to:

- ask as many medical professionals, scientific experts, lawyers, child advocates, organizations and individuals as possible to sign. See the signatories here
- translate and send the declaration to your local politicians, national politicians, relevant authorities and organisations and media. You will find the declaration and the translations here
- contact by phone relevant authorities / people and talk to them about the importance
 of the content of this declaration AND how important it is that we all act NOW.

Best regards

ESC Working Group - EMF protection for Children

Kateřina Davies Haladová

Kamil Bartošák

Pernille Schriver

This letter has been sent to all 31 member organisations

The ESC urges all our members to:

- 1. Ask as many medical professionals, scientific experts, lawyers, child advocates, organisations and individuals as possible to sign.
- 2. Translate and send the declaration to your local politicians, national politicians, relevant authorities and organisations and media.
- 3. Contact by phone relevant authorities / people and talk to them about the importance of the content of this declaration AND how important it is that we all act NOW.

The current screen time debate in Europe

Sweden: PISA test results has push politicians in Sweden to ban smartphones in schools

Denmark: Screen time addiction debate led by well-known doctor

Spain: Parent groups demand smart phones out of the classroom

Description

Descrip

Používanie mobilných telefónov na školách je zakázané alebo obmedzené vo viacerých krajinách. Problému sa venuje aj globálna správa UNESCO s názvom "Technológie vo vzdelávaní". "Mobily na školách sú postupne zakázané v každej 4. krajine na svete "uviedla Jana Foltányová zo Slovenskej komisie pre UNESCO. Anglicko

Používanie mobilných telefónov je na školách v Anglicku zakázané. Nové usmernenia z roku 2023 odporúčajú zákaz používania mobilných telefónov počas školského dňa vrátane prestávok.

Austrália

Základná škola Upper Sturt v Austrálii ako preventívny prístup používa káblové počítače na bezpečný prístup na internet. Na vzdelávacie a administratívne účely boli nainštalované aj káblové inteligentné tabule a telefóny.

Cyprus

Cyprus odstránil Wi-Fi zo základných škôl a tiež znížil RF na detských oddeleniach nemocnice arcibiskupa Makariosa

Fínsko

Občianska iniciatíva vyzbierala 30 000 podpisov na podporu zákazu mobilných telefónov na školách. Novozvolená konzervatívna vláda ich navyše berie vážne a zaviazala sa uzákoniť zákony na uspokojenie žiadosti. Finska vláda v pondelok oznámila, že "posilní právomoci učiteľov a riaditeľov zasahovať do činností, ktoré narúšajú vydovanie počas vyučovania.

Francúzsko

Od začiatku školského roka 2018 sú v školách a vysokých školách zakázané mobilné telefóny. Francúzsko tiež obmedzuje Wi-Fi pripojenie tým, že bezdrôtové pripojenie je štandardne vypnuté a učitelia sa pripajajú na internet cez kábel. Školské siete sú postavené na káblových rozvodoch a v situáciách, keď je potrebné bezdrôtové pripojenie, sa v triede podľa potreby zapína liba na krátky čas a po použití sa vypne.
